

## Safety Data Sheet

According to U.S.A. Federal Hazcom 2012

### 1. Identification

#### 1.1. Product identifier

Code: **SEMISOLIDOWET**  
 Product name: **SEMISOLIDO WET COLORATO**

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Intended use: **FILLED POLYESTER PUTTY**

Identified Uses	Industrial	Professional	Consumer
<b>ADHESIVE SYSTEM/TREATMENT FOR STONE SECTOR</b>	✓	✓	-

#### 1.3. Details of the supplier of the safety data sheet

Name	<b>TENAX SPA</b>		
Full address	<b>Via I Maggio, 226</b>		
District and Country	<b>37020</b>	<b>Volargne</b>	<b>(VR)</b>
		<b>Italy</b>	
	<b>Tel.</b>	<b>+39 045 6887593</b>	
	<b>Fax</b>	<b>+39 045 6862456</b>	
e-mail address of the competent person responsible for the Safety Data Sheet	<b>msds@tenax.it</b>		
Supplier:	<b>Tenax Usa</b>		
	<b>7606 Whitehall Executive Center Drive Suite 400, 28273 Charlotte NC, US</b>		
	<b>Tel. 001 7045831173 - Fax 001 7045833166</b>		
	<b>info@tenaxusa.com</b>		

#### 1.4. Emergency telephone number

For urgent inquiries refer to **Infotrac**  
**US and Canada: 1-800-535-5053**  
**Int'l: 1-352-323-3500**  
**info@infotrac.net**

### 2. Hazards identification

#### 2.1. Classification of the substance or mixture

The product is classified as hazardous pursuant to the provisions set forth in OSHA Hazard Communication Standard (HCS) (29 CFR 1910.1200). The product thus requires a safety datasheet. Any additional information concerning the risks for health and/or the environment are given in sections 11 and 12 of this sheet.

##### Classification and Hazard Statement

Flammable liquid, category 3	Flammable liquid and vapour.
Carcinogenicity, category 2	Suspected of causing cancer.
Reproductive toxicity, category 2	Suspected of damaging fertility or the unborn child.
Specific target organ toxicity - repeated exposure, category 1	Causes damage to organs through prolonged or repeated exposure.
Eye irritation, category 2	Causes serious eye irritation.
Skin irritation, category 2	Causes skin irritation.
Specific target organ toxicity - single exposure, category 3	May cause respiratory irritation.
Respiratory sensitization, category 1	May cause allergy or asthma symptoms or breathing difficulties if inhaled.
Skin sensitization, category 1A	May cause an allergic skin reaction.

## 2. Hazards identification ... / >>

Hazard pictograms:

Signal words:

Danger

Hazard statements:

<b>H226</b>	Flammable liquid and vapour.
<b>H351</b>	Suspected of causing cancer.
<b>H361</b>	Suspected of damaging fertility or the unborn child.
<b>H372</b>	Causes damage to organs through prolonged or repeated exposure.
<b>H319</b>	Causes serious eye irritation.
<b>H315</b>	Causes skin irritation.
<b>H335</b>	May cause respiratory irritation.
<b>H334</b>	May cause allergy or asthma symptoms or breathing difficulties if inhaled.
<b>H317</b>	May cause an allergic skin reaction.

Precautionary statements:

Prevention:

<b>P210</b>	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
<b>P260</b>	Do not breathe dust / fume / gas / mist / vapours / spray.
<b>P202</b>	Do not handle until all safety precautions have been read and understood.
<b>P242</b>	Use only non-sparking tools.
<b>P201</b>	Obtain special instructions before use.
<b>P280</b>	Wear protective gloves/ protective clothing / eye protection / face protection.
<b>P270</b>	Do not eat, drink or smoke when using this product.
<b>P271</b>	Use only outdoors or in a well-ventilated area.
<b>P264</b>	Wash the hands thoroughly after handling.
<b>P240</b>	Ground / bond container and receiving equipment.
<b>P243</b>	Take precautionary measures against static discharge.
<b>P241</b>	Use explosion-proof electrical / ventilating / lighting / . . . / equipment.
<b>P272</b>	Contaminated work clothing should not be allowed out of the workplace.
<b>P284</b>	[In case of inadequate ventilation] wear respiratory protection.

Response:

<b>P305+P351+P338</b>	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
<b>P303+P361+P353</b>	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water / shower.
<b>P308+P313</b>	IF exposed or concerned: Get medical advice / attention.
<b>P312</b>	Call a POISON CENTER / doctor / . . . / if you feel unwell.
<b>P342+P311</b>	If experiencing respiratory symptoms: call a POISON CENTER / doctor / . . .
<b>P333+P313</b>	If skin irritation or rash occurs: Get medical advice / attention.
<b>P337+P313</b>	If eye irritation persists: Get medical advice / attention.
<b>P304+P340</b>	IF INHALED: remove person to fresh air and keep comfortable for breathing.
<b>P302+P352</b>	IF ON SKIN: wash with plenty of water / . . .
<b>P362+P364</b>	Take off contaminated clothing and wash it before reuse.
<b>P370+P378</b>	In case of fire: use CO <sub>2</sub> , sand, powder to extinguish.
<b>P363</b>	Wash contaminated clothing before reuse.

Storage:

<b>P403+P235</b>	Store in a well-ventilated place. Keep cool.
<b>P403+P233</b>	Store in a well-ventilated place. Keep container tightly closed.
<b>P405</b>	Store locked up.

Disposal:

<b>P501</b>	Dispose of contents / container according to applicable law.
-------------	--

### 2.2. Other hazards

Information not available

## 3. Composition/information on ingredients

### 3. Composition/information on ingredients ... / >>

#### 3.2. Mixtures

REACH Reg. 01-2119472428-31		

\* There is a batch to batch variation.

The full wording of hazard (H) phrases is given in section 16 of the sheet.

### 4. First-aid measures

#### 4.1. Description of first aid measures

**EYES:** Remove contact lenses, if present. Wash immediately with plenty of water for at least 30-60 minutes, opening the eyelids fully. Get medical advice/attention.

**SKIN:** Remove contaminated clothing. Rinse skin with a shower immediately. Get medical advice/attention.

**INGESTION:** Have the subject drink as much water as possible. Get medical advice/attention. Do not induce vomiting unless explicitly authorised by a doctor.

**INHALATION:** Get medical advice/attention immediately. Remove victim to fresh air, away from the accident scene. If the subject stops breathing, administer artificial respiration. Take suitable precautions for rescue workers.

#### 4.2. Most important symptoms and effects, both acute and delayed

Specific information on symptoms and effects caused by the product are unknown.

#### 4.3. Indication of any immediate medical attention and special treatment needed

Information not available

## 5. Fire-fighting measures

### 5.1. Extinguishing media

#### SUITABLE EXTINGUISHING EQUIPMENT

Extinguishing substances are: carbon dioxide, foam, chemical powder. For product loss or leakage that has not caught fire, water spray can be used to disperse flammable vapours and protect those trying to stem the leak.

#### UNSUITABLE EXTINGUISHING EQUIPMENT

Do not use jets of water. Water is not effective for putting out fires but can be used to cool containers exposed to flames to prevent explosions.

### 5.2. Special hazards arising from the substance or mixture

#### HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE

Excess pressure may form in containers exposed to fire at a risk of explosion. Do not breathe combustion products.

Combustion products: mainly Calcium and COx fumes.

### 5.3. Advice for firefighters

#### GENERAL INFORMATION

Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

#### SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS

Normal fire fighting clothing i.e. fire kit (BS EN 469), gloves (BS EN 659) and boots (HO specification A29 and A30) in combination with self-contained open circuit positive pressure compressed air breathing apparatus (BS EN 137).

## 6. Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Block the leakage if there is no hazard.

Wear suitable protective equipment (including personal protective equipment referred to under Section 8 of the safety data sheet) to prevent any contamination of skin, eyes and personal clothing. These indications apply for both processing staff and those involved in emergency procedures.

### 6.2. Environmental precautions

The product must not penetrate into the sewer system or come into contact with surface water or ground water.

### 6.3. Methods and material for containment and cleaning up

Collect the leaked product into a suitable container. Evaluate the compatibility of the container to be used, by checking section 10. Absorb the remainder with inert absorbent material.

Make sure the leakage site is well aired. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

### 6.4. Reference to other sections

Any information on personal protection and disposal is given in sections 8 and 13.

## 7. Handling and storage

### 7.1. Precautions for safe handling

Keep away from heat, sparks and naked flames; do not smoke or use matches or lighters. Without adequate ventilation, vapours may accumulate at ground level and, if ignited, catch fire even at a distance, with the danger of backfire. Avoid bunching of electrostatic charges. Do not eat, drink or smoke during use. Remove any contaminated clothes and personal protective equipment before entering places in which people eat. Avoid leakage of the product into the environment.

### 7.2. Conditions for safe storage, including any incompatibilities

Store only in the original container. Store in a cool and well ventilated place, keep far away from sources of heat, naked flames and sparks and other sources of ignition. Keep containers away from any incompatible materials, see section 10 for details.

### 7. Handling and storage ... / >>

#### 7.3. Specific end use(s)

Information not available

### 8. Exposure controls/personal protection

#### 8.1. Control parameters

STYRENE

Sampling methods: [https://amcaw.ifa.dguv.de/substance/methoden/004-styrene\\_2016.pdf](https://amcaw.ifa.dguv.de/substance/methoden/004-styrene_2016.pdf)

### 8.2. Exposure controls

As the use of adequate technical equipment must always take priority over personal protective equipment, make sure that the workplace is well aired through effective local aspiration. Personal protective equipment must comply with current regulations.

#### HAND PROTECTION

Protect hands with category III work gloves.

The following should be considered when choosing work glove material (OSHA 29 CFR 1910.138): compatibility, degradation, failure time and permeability.

The work gloves' resistance to chemical agents should be checked before use, as it can be unpredictable. The gloves' wear time depends on the duration and type of use.

#### SKIN PROTECTION

Wear category I professional long-sleeved overalls and safety footwear. Wash body with soap and water after removing protective clothing.

#### EYE PROTECTION

Wear airtight protective goggles (OSHA 29 CFR 1910.133).

#### RESPIRATORY PROTECTION

If the threshold value (e.g. TLV-TWA) is exceeded for the substance or one of the substances present in the product, wear a mask with a NIOSH certified filter, whose class must be chosen according to the limit of use concentration (NIOSH 42 CFR 84, OSHA 29 CFR 1910.134). In the presence of gases or vapours of various kinds and/or gases or vapours containing particulate (aerosol sprays, fumes,

### 8. Exposure controls/personal protection ... / >>

mists, etc.) combined filters are required.

Respiratory protection devices must be used if the technical measures adopted are not suitable for restricting the worker's exposure to the threshold values considered. The protection provided by masks is in any case limited.

If the substance considered is odourless or its olfactory threshold is higher than the corresponding TLV-TWA and in the case of an emergency, wear open-circuit compressed air breathing apparatus or external air-intake breathing apparatus. For a correct choice of respiratory protection device, see standard NIOSH 42 CFR 84, OSHA 29 CFR 1910.134.

#### ENVIRONMENTAL EXPOSURE CONTROLS

The emissions generated by manufacturing processes, including those generated by ventilation equipment, should be checked to ensure compliance with environmental standards.

**HAND PROTECTION:** Protect hands with work gloves for protection from chemical agents in nitrile or fluoroelastomer (EN 374-1: 2016) at least type B or higher based on the risk assessment carried out by the company. Breakthrough time > 480 minutes.

Material thickness:

**NITRILE**

short contact > 0.38 mm

prolonged contact > 0.55 mm

**FLUOROELASTOMER**

short contact > 0.50 mm

prolonged contact > 1.50 mm

### 9. Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

Properties	Value	Information
Appearance	paste	
Colour	various	
Odour	typical	
Odour threshold	not available	
pH	not available	Reason for missing data: substance/mixture is non-polar/aprotic (eg: an organic solvent mixture)
Melting point / freezing point	not available	
Initial boiling point	not available	
Boiling range	not available	
Flash point	31 °C	(87,8 °F) Substance: STYRENE
Evaporation rate	not available	
Flammability	not available	
Lower inflammability limit	not available	
Upper inflammability limit	not available	
Lower explosive limit	not available	
Upper explosive limit	not available	
Vapour pressure	not available	
Vapour density	not available	
Relative density	1.58 g/cm <sup>3</sup>	
Solubility	insoluble in water	
Partition coefficient: n-octanol/water	not available	
Auto-ignition temperature	not available	
Decomposition temperature	not available	
Viscosity	>20,5 mm <sup>2</sup> /sec (40°C)	
Explosive properties	not available	
Oxidising properties	not available	

#### 9.2. Other information

VOC : 16,71 % - 264,05 g/litre

### 10. Stability and reactivity

#### 10.1. Reactivity

There are no particular risks of reaction with other substances in normal conditions of use.

##### TRIETHANOLAMINE

Possibility of reaction with acids. Possibility of reaction with oxidizing substances.

##### STYRENE

Polymerises at temperatures above 65°C/149°F. Fire hazard. Possibility of explosion.

**10. Stability and reactivity** ... / >>

Added with an inhibitor that requires a small amount of dissolved oxygen at temperatures < 25°C/77°F.

**10.2. Chemical stability**

The product is stable in normal conditions of use and storage.

**10.3. Possibility of hazardous reactions**

The vapours may also form explosive mixtures with the air.

**STYRENE**

May react dangerously with: peroxides, strong acids. May polymerise on contact with: aluminium trichloride, azobisisobutyronitrile, dibenzoyl peroxide, sodium. Risk of explosion on contact with: butyllithium, chlorosulphuric acid, diterbutyl peroxide, oxidising substances, oxygen.

**10.4. Conditions to avoid**

Avoid overheating. Avoid bunching of electrostatic charges. Avoid all sources of ignition.

**STYRENE**

Avoid contact with: oxidising substances, copper, strong acids.

**10.5. Incompatible materials**

**TRIETHANOLAMINE**

Oxidizing agents. Keep away from halogenated hydrocarbon acids.

**STYRENE**

Incompatible materials: plastic materials.

**10.6. Hazardous decomposition products**

In the event of thermal decomposition or fire, gases and vapours that are potentially dangerous to health may be released.

**11. Toxicological information**

**11.1. Information on toxicological effects**

Metabolism, toxicokinetics, mechanism of action and other information

Information not available

Information on likely routes of exposure

**STYRENE**

WORKERS: inhalation; contact with the skin.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

**STYRENE**

The acute toxicity by inhalation at 1000 ppm affects the central nervous system with headache and dizziness, lack of coordination; irritation of the eye and respiratory tract mucous membranes occurs at 500 ppm. Chronic exposure causes depression of the central and peripheral nervous system with loss of memory, headache and drowsiness starting at 20 ppm; digestive disorders with nausea and loss of appetite; irritation of the respiratory tract with chronic bronchitis; dermatosis. Repeated exposure, at low doses of inhaled substance, causes irreversible changes to hearing and may cause changes in colour vision. No certain data is available on the reversibility of the visual impairment. Repeated skin exposure causes irritation. The substance degrades the skin, which can cause dryness and cracking.

Interactive effects

**STYRENE**

The metabolism of the substance is inhibited by ethanol. When styrene is photo-oxidised with ozone and nitrogen dioxide, as in the formation of smog, products highly irritating for the human eye may ensue.

ACUTE TOXICITY

**TRIETHANOLAMINE**

LD50 (Oral): 4190 mg/kg Rat

SKIN CORROSION / IRRITATION

Causes skin irritation

SERIOUS EYE DAMAGE / IRRITATION

Causes serious eye irritation

RESPIRATORY OR SKIN SENSITISATION

Sensitising for the skin  
 Sensitising for the respiratory system

GERM CELL MUTAGENICITY

Does not meet the classification criteria for this hazard class

CARCINOGENICITY

Suspected of causing cancer  
 Carcinogenicity Assessment:

100-42-5	STYRENE
	ACGIH:: A4
	IARC:2B
	NTP: Reasonably Anticipated
102-71-6	TRIETHANOLAMINE
	IARC:3
13463-67-7	TITANIUM DIOXIDE
	ACGIH:: A4
	IARC:2B
108-31-6	MALEIC ANHYDRIDE
	ACGIH:: A4

**STYRENE**  
 Classified in Group 2B (possible human carcinogen) by the International Agency for Research on Cancer (IARC) - (IARC, 2002).  
 Classified as "probable carcinogen" by the US National Toxicology Program (NTP) - (US DHHS, 2014).

REPRODUCTIVE TOXICITY

Suspected of damaging fertility or the unborn child

STOT - SINGLE EXPOSURE

May cause respiratory irritation

STOT - REPEATED EXPOSURE

Causes damage to organs

ASPIRATION HAZARD

Does not meet the classification criteria for this hazard class Viscosity: >20,5 mm2/sec (40°C)

### 12. Ecological information

Use this product according to good working practices. Avoid littering. Inform the competent authorities, should the product reach waterways or contaminate soil or vegetation.

#### 12.1. Toxicity

##### TRIETHANOLAMINE

LC50 - for Fish	11800 mg/l/96h <i>Pimephales promelas</i>
EC50 - for Crustacea	609.88 mg/l/48h <i>Ceriodaphnia dubia</i>
EC50 - for Algae / Aquatic Plants	512 mg/l/72h <i>Scenedesmus subspicatus</i>

##### TITANIUM DIOXIDE

LC50 - for Fish	> 1000 mg/l/96h
EC50 - for Crustacea	> 1000 mg/l/48h <i>Daphnia</i>
EC50 - for Algae / Aquatic Plants	> 61 mg/l/72h <i>Pseudokirchneriella subcapitata</i>

##### PHTHALIC ANHYDRIDE

LC50 - for Fish	560 mg/l/96h
EC50 - for Crustacea	> 640 mg/l/48h
EC50 - for Algae / Aquatic Plants	> 100 mg/l/72h
Chronic NOEC for Fish	10 mg/l

#### 12.2. Persistence and degradability

##### TRIETHANOLAMINE

Solubility in water	> 1000000 mg/l
Rapidly degradable	

##### TITANIUM DIOXIDE

Solubility in water	< 0.001 mg/l
Degradability: information not available	

##### STYRENE

Solubility in water	320 mg/l
Rapidly degradable	

##### MALEIC ANHYDRIDE

Solubility in water	> 10000 mg/l
Entirely degradable	

#### 12.3. Bioaccumulative potential

##### TRIETHANOLAMINE

Partition coefficient: n-octanol/water	-1.75
BCF	< 3.9

### 12. Ecological information ... / >>

**STYRENE**

Partition coefficient: n-octanol/water 2.96

BCF 74

**MALEIC ANHYDRIDE**

Partition coefficient: n-octanol/water -2.78

#### 12.4. Mobility in soil

**TRIETHANOLAMINE**

Partition coefficient: soil/water 1

**STYRENE**

Partition coefficient: soil/water 2.55

#### 12.5. Results of PBT and vPvB assessment

On the basis of available data, the product does not contain any PBT or vPvB in percentage  $\geq$  than 0,1%.

#### 12.6. Other adverse effects

Information not available

### 13. Disposal considerations

#### 13.1. Waste treatment methods

Reuse, when possible. Neat product residues should be considered special non-hazardous waste.

Disposal must be performed through an authorised waste management firm, in compliance with national and local regulations.

**CONTAMINATED PACKAGING**

Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations.

### 14. Transport information

#### 14.1. UN number

ADR / RID, IMDG, IATA: 1866

The product, if packaged in packages of less than 450 litres, is not subject to ADR regulations as stated in 2.2.3.1.5.

The product, if packaged in packages of less than 450 litres, is not subject to obligations relating to marking, labelling and package testing in accordance with 2.3.2.5 of the IMDG CODE.

#### 14.2. UN proper shipping name

ADR / RID: RESIN SOLUTION  
 IMDG: RESIN SOLUTION  
 IATA: RESIN SOLUTION

**14. Transport information** ... / >>

**14.3. Transport hazard class(es)**

ADR / RID:            Class: 3            Label: 3

IMDG:                Class: 3            Label: 3

IATA:                 Class: 3            Label: 3

**14.4. Packing group**

ADR / RID, IMDG, IATA:            III

**14.5. Environmental hazards**

ADR / RID:            NO  
IMDG:                 NO  
IATA:                 NO

**14.6. Special precautions for user**

ADR / RID:	HIN - Kemler: 30	Limited Quantities: 5 L	Tunnel restriction code: (D/E)
	Special provision: -		
IMDG:	EMS: F-E, S-E	Limited Quantities: 5 L	
IATA:	Cargo:	Maximum quantity: 220 L	Packaging instructions: 366
	Passengers:	Maximum quantity: 60 L	Packaging instructions: 355
	Special provision:	A3	

**14.7. Transport in bulk according to Annex II of Marpol and the IBC Code**

Information not relevant

**15. Regulatory information**

**15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture**

U.S. Federal Regulations

TSCA:

All components of this product are listed on US Toxic Substances Control Act (TSCA) Inventory or are exempt from the listing / notification requirements.

Clean Air Act Section 112(b):

100-42-5            STYRENE  
85-44-9            PHTHALIC ANHYDRIDE

Clean Air Act Section 602 Class I Substances:

No component(s) listed.

Clean Air Act Section 602 Class II Substances:

No component(s) listed.

Clean Water Act – Priority Pollutants:

No component(s) listed.

Clean Water Act – Toxic Pollutants:

No component(s) listed.

DEA List I Chemicals (Precursor Chemicals):

No component(s) listed.

### 15. Regulatory information ... / >>

DEA List II Chemicals (Essential Chemicals):

No component(s) listed.

EPA List of Lists:

313 Category Code:

100-42-5 STYRENE  
 85-44-9 PHTHALIC ANHYDRIDE

EPCRA 302 EHS TPQ:

No component(s) listed.

EPCRA 304 EHS RQ:

No component(s) listed.

CERCLA RQ:

100-42-5 STYRENE  
 85-44-9 PHTHALIC ANHYDRIDE

EPCRA 313 TRI:

100-42-5 STYRENE  
 85-44-9 PHTHALIC ANHYDRIDE

RCRA Code:

85-44-9 PHTHALIC ANHYDRIDE

CAA 112 (r) RMP TQ:

No component(s) listed.

State Regulations

Massachusetts:

14807-96-6 TALC  
 102-71-6 TRIETHANOLAMINE  
 13463-67-7 TITANIUM DIOXIDE  
 100-42-5 STYRENE  
 85-44-9 PHTHALIC ANHYDRIDE

Minnesota:

14807-96-6 TALC  
 102-71-6 TRIETHANOLAMINE  
 13463-67-7 TITANIUM DIOXIDE  
 100-42-5 STYRENE  
 85-44-9 PHTHALIC ANHYDRIDE

New Jersey:

14807-96-6 TALC  
 102-71-6 TRIETHANOLAMINE  
 13463-67-7 TITANIUM DIOXIDE  
 100-42-5 STYRENE  
 85-44-9 PHTHALIC ANHYDRIDE

New York:

100-42-5 STYRENE  
 85-44-9 PHTHALIC ANHYDRIDE

Pennsylvania:

102-71-6 TRIETHANOLAMINE  
 13463-67-7 TITANIUM DIOXIDE  
 100-42-5 STYRENE  
 85-44-9 PHTHALIC ANHYDRIDE

California:

14807-96-6 TALC  
 100-42-5 STYRENE  
 85-44-9 PHTHALIC ANHYDRIDE

Proposition 65:

WARNING! This product contains chemicals known to the State of California to cause cancer and birth defects or reproductive harm.

### 15. Regulatory information ... / >>

13463-67-7 TITANIUM DIOXIDE						
Hazard type	NSRL / MADL (µg/day)	Oral	Dermal	Inhalation	Intravenous	Note
28553-12-0 DIISONONYL PHTHALATE						
Hazard type	NSRL / MADL (µg/day)	Oral	Dermal	Inhalation	Intravenous	Note
Carcinogenicity	146					-
100-42-5 STYRENE						
Hazard type	NSRL / MADL (µg/day)	Oral	Dermal	Inhalation	Intravenous	Note
Carcinogenicity	27					-

International Regulations

Substances subject to exportation reporting pursuant to Regulation (EU) 649/2012:

None

Substances subject to the Rotterdam Convention:

None

Substances subject to the Stockholm Convention:

None

### 16. Other information

Text of hazard (H) indications mentioned in section 2-3 of the sheet:

<b>H226</b>	Flammable liquid and vapour.
<b>H351</b>	Suspected of causing cancer.
<b>H361</b>	Suspected of damaging fertility or the unborn child.
<b>H302</b>	Harmful if swallowed.
<b>H332</b>	Harmful if inhaled.
<b>H372</b>	Causes damage to organs through prolonged or repeated exposure.
<b>H304</b>	May be fatal if swallowed and enters airways.
<b>H314</b>	Causes severe skin burns and eye damage.
<b>H318</b>	Causes serious eye damage.
<b>H319</b>	Causes serious eye irritation.
<b>H315</b>	Causes skin irritation.
<b>H335</b>	May cause respiratory irritation.
<b>H334</b>	May cause allergy or asthma symptoms or breathing difficulties if inhaled.
<b>H317</b>	May cause an allergic skin reaction.
<b>H412</b>	Harmful to aquatic life with long lasting effects.

#### Note for users:

The information contained in the present sheet are based on our own knowledge on the date of the last version. Users must verify the suitability and thoroughness of provided information according to each specific use of the product.

This document must not be regarded as a guarantee on any specific product property.

The use of this product is not subject to our direct control; therefore, users must, under their own responsibility, comply with the current health and safety laws and regulations. The producer is relieved from any liability arising from improper uses.

Provide appointed staff with adequate training on how to use chemical products.

#### CALCULATION METHODS FOR CLASSIFICATION

Product classification derives from criteria established by the OSHA Hazard Communication Standard (HCS) (29 CFR 1910.1200), unless determined otherwise in Section 11 and 12. The data for evaluation of chemical-physical properties are reported in section 9.
